DISCOVER

This quad is insanely fluffy-smooth on the palate, with an even, full-body and semi-sharp carbonation edge that knocks the silky bliss down for a moment. The softness returns as a mildly sweet malt profile, with dried raisins, powdery dark chocolate, sweet cherries soaked in alcohol and a slight tartness of strawberries.

SIGNATURE BEER

What separates the Oatmeal Stout from other Stouts is a simple addition of oats and sweetness. Generally, oats will make up only around 5 percent of the total grain to avoid problems in the brewing process due to its thick consistency when it is hydrated.
